# About DevFest Vienna

DevFest Vienna started in 2012 and is part of a **global developer conference series**. This year it takes place at the **TU Wien** and **Raum D / quartier21** on the weekend of **5 - 6 November 2016**.

The first day is dedicated to **more than ten** talks and presentations about upcoming and new software development technologies. Speakers are developer experts from the region, with topics around **Mobile, Social Media, Cloud & Web**.

And a **hackathon** is in the center of the second day, with participants developing new solutions from scratch.

# Venue

On Saturday two rooms are available at **TU Wien** for talks and sessions which will be held in parallel.

Sponsors will have space at the foyer to present at a table and to display banners and posters.

And for the hackathon on Sunday **Raum D / quartier21** offers a cosy atmosphere, focusing on collaboration and team coding.

TECHNISCHE  
UNIVERSITÄT  
WIEN

Vienna University of Technology

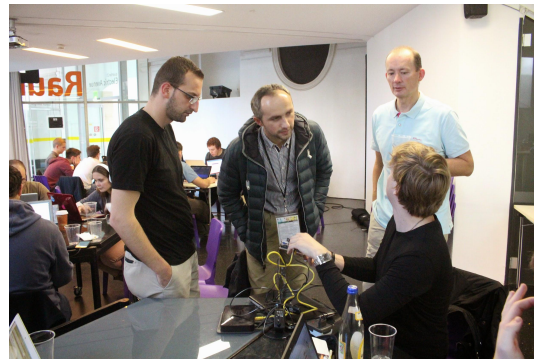

# Participants

More than **200 participants** will be attending **DevFest Vienna** at the TU Wien: a mixture of hobby programmers and students, as well as professional developers from Vienna and the region.

At the hackathon on Sunday around fifteen highly-skilled and engaged developers will be coding live.

# Organizer Team

**DevFest Vienna** is organized by a team of **experienced** and **enthusiastic** event organizers, coming from **GDG Vienna**, **Java Vienna** and **AndroidHeads Vienna**.

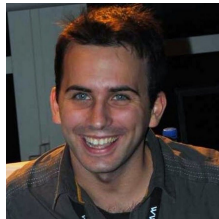

*Below are some of the DevFest Vienna organizer team members.  
The full team can be seen on <http://devfest.at/team>*
