About DevFest Vienna

DevFest Vienna started in 2012 and is part of a **global developer conference series**. This year it takes place at the **TU Wien** and **Metalab** on the weekend of **5 - 6 November 2016**.

The first day is dedicated to **more than ten** talks and presentations about upcoming and new software development technologies. Speakers are developer experts from the region, with topics around **Mobile**, **Social Media, Cloud & Web.**

A **hackathon** forms the centerpiece of the second day, with participants developing new solutions from scratch.

Venue

On Saturday two rooms are available at **TU Wien** for talks and sessions which will be held in parallel.
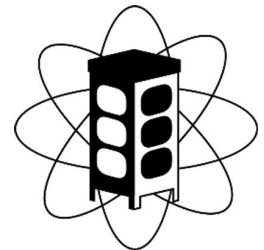

Sponsors will have space at the foyer to present at a table and to display banners and posters.

And for the hackathon on Sunday **Metalab**, a hacker space in the center of Vienna, offers a matching atmosphere, focusing on creativity, collaboration and team coding.

TECHNISCHE
UNIVERSITÄT
WIEN
Vienna University of Technology

Participants

More than **200 participants** will be attending **DevFest Vienna** at the TU Wien: a mixture of hobby programmers and students, as well as professional developers from Vienna and the region.

At the hackathon on Sunday around fifteen highly-skilled and engaged developers will be coding live.

Organizer Team

DevFest Vienna is organized by a team of **experienced** and **enthusiastic** event organizers, coming from **GDG Vienna**, **Java Vienna** and **AndroidHeads Vienna**.

Below are some of the DevFest Vienna organizer team members. The full team can be seen on http://devfest.at/team
